Gentlemen;
The care of the destitute in our community, resulting from the present general economic conditions, has grown to unprecedented proportions; at the same time our Municipal revenue has fallen off to the point where it is found necessary to discontinue even the usual annual appropriations made for this purpose.

Upon our request, a representative of the Georgia Relief Administration has made a survey of conditions here, based on which a loan from the R.F.C., was contemplated. It was found that all such loans must be made by the Counties interested. We realize the absolute need of caring for our unfortunate, and urge that every step be taken to adequately provide for them. You may depend on the cooperation of our Commission in every way possible.

WHEREAS, the State Highway Department and the County of Glynn desire to construct a road between Brunswick and Jesup, and known as State Aid Project No. 84; and WHEREAS, the project will extend within the corporate limits of the municipality of Brunswick, IT IS HEREBY RESOLVED that we, the Mayor and Commissioners charged with the management of the finances of said municipality of Brunswick, and the legally authorized agents of said municipality, hereby guarantee to the State Highway Department of Georgia, and the County of Glynn, any and all rights of way that may, in the opinion of the State Highway Department of Georgia, be necessary to the proper construction of the above named project and according to survey as made by engineers of the State Highway Department, within the corporate limits of said municipality, the same being between Survey Stations 6,478.9 and 6,500, and a width of eighty (80) feet.

We further agree to defend any and all suits, if any should arise, at the entire expense of the town and to pay from funds of the town or municipality, any and all awards and judgments that may be made or had under or as a result of such suits.

We further agree to save harmless the State Highway Department and the County of Glynn from any and all claims for any damages whatsoever that may arise prior to beginning or during construction of the project or at any time in the future, after completion of same; whether said damages arise as a result of appropriation of said rights of way within said municipality by the State Highway Department, and or the County of Glynn, or construction on said right of way, or drainage, change of grade, change of location, or any cause whatsoever.

We further agree that we will not allow any new structure to be built within the limits of the right of way above described or allow any rebuilding of existing structures. It is agreed that any existing structures within the right of way, which do not interfere with the construction of the highway or the free flow of traffic, will be allowed to remain for a period of not to exceed five (5) years, and we agree that all structures at present within this right of way will be removed without cost to the State before the expiration of five (5) years.
